B2B COLLECTION

Handcrafted in hemp & cotton — made to be seen

ABOUT ZARI

Carry something worth giving.

Zari makes bags that are built to last and designed to be noticed. Every piece in our range is crafted from natural hemp — a fibre chosen for its strength, texture, and minimal environmental footprint. Our B2B collection gives brands the opportunity to put their name on something recipients will reach for long after the occasion has passed.

Every product in this catalogue is available with custom logo printing — a practical and considered choice for onboarding kits, event merchandise, client gifting, and team giveaways.
